Duct Tape Doo Dads
Ideas for using duct tape

Just about anything you would like to do with duct tape can be found on the Internet. Look to resources such as You Tube, Pinterest, and the Duck brand website. In fact Duck and Scotch have posted many videos to You Tube. A search for “duct tape crafts” will get you an almost endless number of choices.

The projects we saw at the workshop include:

These resources can get you started, but go ahead and just use your imagination. Show some simple projects to the girls and let them run with it. You'll be amazed with what they create and how much fun they have doing it!
